WORK EXPERIENCE

Elocity Tech

Technical Product Manager | Platform Products | Distributed Systems | AI | DevOps — Jan 2023 - Present

- Owned product strategy, platform roadmap, prioritization and cross-functional delivery of enterprise EV Charging SaaS across charging, billing, integrations and cloud-native platform services.
- Drove AI product strategy and delivery across intelligent assistants, conversational analytics, AI-enabled customer support and natural language insights using LLMs, PostgreSQL, OpenSearch and enterprise platform data.
- Led platform scalability and reliability strategy supporting 500K+ daily transactions across distributed systems, Kubernetes infrastructure and API services.

Senior Software Engineer — Jan 2022 - Jan 2023

- Architected scalable backend services, REST APIs and enterprise integrations across chargers, payment providers and third-party platforms.
- Optimized distributed systems using Kafka, Redis, PostgreSQL and OpenSearch to improve platform performance, reliability and operational efficiency.
- Led architecture reviews, engineering standards, Kubernetes deployments, production troubleshooting and platform monitoring for scalable backend services.

SAP Labs

Software Engineer — Jan 2018 - Dec 2021

- Developed enterprise banking and insurance applications using Node.js, JavaScript and SQL with emphasis on scalability and maintainability.
- Improved large-scale batch processing performance by 5× using concurrency optimization and efficient system design.

PiRuby - Data Scientist Intern — Aug 2016 - Dec 2017

- Built automation pipelines and analytics tools processing 5GB+ text and 1M+ metadata records.

EDUCATION

SJCE, Mysore - BTech - Computer Science - 9.2 GPA — Aug 2014 - July 2018

PROJECT

Natanam Events – Full-Stack Event Management Platform

- Built and deployed an event management platform generating ₹10L+ revenue, automating event operations while saving 20+ person-days per event.

SKILLS

- Tech: System Design, Distributed Systems, Microservices, AWS, Kubernetes, Kafka, Redis, PostgreSQL, OpenSearch, Cloudflare, API Design, Performance Optimization
- Product: Product Strategy, Roadmapping, PRDs, Prioritization, Product Discovery, Stakeholder Management, Customer Interviews, Product Analytics
- Domain: Enterprise SaaS, EV Charging, OCPP, OCPI, CPMS
- AI: Generative AI, LLMs, AI Assistants, NLP
- Leadership: Cross-Functional Leadership, Technical Leadership, Executive Stakeholder Management, Mentoring, Customer Engagement, Ownership
